Best Polytechnic AWARDS

Declared Best Polytechnic in Haryana, Two Years in a Row

Principal receiving BEST POLYTECHNIC Award from Mr. Shashi Tharoor (the then Former Minister- Govt. of India) on 07th January 2012

Principal receiving BEST POLYTECHNIC Award from Mr. Shrikant (Former Cricketer - INDIA) on 05th January 2013

Life at JAI Polytechnic

- Library
- Nearly 15,000 Books
 - Latest periodicals and journals

- Lecture Halls
- Spacious, ventilated and well-lit
 - Appropriate atmosphere for learning

- Sports
- Volleyball, Basketball, Cricket
 - Table tennis, Badminton and Indoor sports

- Computer Lab
- 24 x 7 power backup
 - Latest Computer Systems

- Mess
- Caters to North East Students
 - Clean & Hygienic Food

- Industrial Visits
- Regular Industrial Visit

- Canteen
- 120 seater - indoor canteen
 - Neat environment
 - Clean and affordable food

- Cultural Activities
- Talent show
 - New year Celebrations
 - Annual function

- Job and Placement Fair
- 214 successful short-listed candidates from 21 participating companies.

About JAI POLYTECHNIC

JAI Polytechnic is a modest beginning in the field of technical education. It has long been felt that there is an acute shortage of skilled manpower in the country. It was with this view that ISHAR DEVI EDUCATIONAL & CHARITABLE TRUST was set up in December 2007 and the first decision taken by the Trust was to establish a Polytechnic.

JAI Polytechnic is the consequence of such a

vision. Dr. K.L. Johar, Chairman of the Trust and the Board of Management is a leading educationist who has served as Vice-Chancellor of GJU (Guru Jambheshwar University), Hisar and Pro-Vice Chancellor of Kurukshetra University, Kurukshetra. The Vice-Chairman, Sh. D.R. Johar has been actively associated with Educational Institutions after his superannuation as Deputy General Manager, BILT, Yamuna Nagar.

Chairman Message

I take immense pleasure to introduce and dedicate JAI POLYTECHNIC to the nation. As a result of my 50 years of academic experience, I believe that JAI POLYTECHNIC is poised to be one of the best polytechnics in India. We have blended the latest technologies and teaching aids to help the students grasp the concepts and retain the knowledge. Visual aids and carefully selected faculty make learning a fun. My best wishes to the Principal, Dean, Faculty and staff to achieve the goal: 'KNOWLEDGE WITH EMPOWERMENT'.

Dr. K. L. Johar
Former Vice Chancellor
Guru Jambheshwar University of Science and Technology, Hisar

- Qualified and Experienced Faculty
- 6 Hi-Tech Computer Labs
- Fully Air-Conditioned Library and fully equipped Labs
- Hostel with facilities like Solar Geyser, Indoor Games
- Separate Hostel & Mess for Boys and Girls
- Canteen, Cafeteria and Sports Facility
- 24 x 7 Power Backup in Campus and Hostel

JAI

Vision

To be an institute of academic excellence with total commitment to quality education and research, with a holistic concern for better life, environment and society.

Mission

Our mission is to support technical revolution that can meet the challenges of globalization and liberalization through key elements of competition and by making quality education accessible to the young populace of the nation.

Infrastructure

Library

A good library is the life blood of any educational institution. As such every effort has been made to provide a congenial atmosphere in the library for studies for the students and members of the staff. The Library is fully air-conditioned. It has been furnished with excellent reading materials, books, periodicals, a photocopier and furniture. Adequate books have been purchased. It has been decided that each student admitted in the Polytechnic will be issued books semester-wise for the full duration of the course. It has also been decided to procure educational content in audio, video & CD/DVD formats for the benefit of the students.

Language Lab

The communication skills of the students especially of those belonging to rural areas is poor. Keeping this view in mind a language lab has been set up in the Institute. In the lab the students are trained to communicate effectively in English with the help of audio visual aids which instill confidence in them.

Audio Visual Lab

High Tech lab with Projector and Sound facilities has also been set up so as to impart up-to-date quality education using e-learning and live content. This facility helps deliver live interactive classes using the web and internet.

Computer Center

The computer center is equipped with the Latest computer systems purchased from HCL. The center houses six separate labs in addition to one lecture lab and a practice lab. The effort of the Board of Management is to give adequate computer training even to non-computer trade students. The lecture lab is fitted

with LCD TV and all the labs are fully air-conditioned with 100% Power backup through UPS as well as Power Generators.

Labs and Workshops

Every lab and workshop is well equipped with latest instruments, tools and machines. Besides lecturers, skilled man power has also been appointed in every lab & workshop to assist and monitor students. Under the guidance of these persons/mentors the students perform their practicals without any difficulty.

Canteen and Cafeteria

In the institute, a Canteen with a capacity of 120 students has also been built. In the canteen tea, coffee, cold drinks & snacks are provided to the students at very reasonable rates. Besides this, mess facility is also available for hostlers and other students.

Transport Facility

The institute provides transport facility from Barara Yamuna Nagar, Mustafabad, Shahabad and the neighboring villages. Nominal Charges are taken from the students for this facility. Besides this there are excellent rail links from Yamuna Nagar, Jagadhri Workshop, Ambala, Mustafabad Saharanpur & road link from Shahabad.

Power back-up

Power position tends to be erratic. In order to ensure smooth academic functioning, two D.G. Sets of total capacity of 70 KVA have already been installed. In the meantime the institute has been brought under independent urban feeder service from the electricity board leading to improvement in the power supply.

- 280 seater on-campus hostel
- Multigym, Mess, Creativity room
- 24 hours power backup

- Inside view of building

- Separate Girls Hostel
- Lady Warden
- Spacious & Airy Rooms

Academic and Hostel

Faculty and Staff

Fully conscious of the fact that the faculty constitutes the most important component of an educational institution, particularly a technical institution; every care has been taken to recruit fully qualified and committed faculty in the subjects of Computer Engineering, Mechanical Engineering, Electrical Engineering, Electronics & Communication Engineering, Civil Engineering, Physics, Chemistry, Mathematics & English. Two lecturers have been appointed in the subject of English with a view to improve communication skills of the students. Similarly, members of the non-teaching staff look into the problems of the students and try to solve them in a friendly fashion.

Teaching through e-Learning at JAI POLYTECHNIC

JAI POLYTECHNIC is the first polytechnic in the state of Haryana to use computer-based teaching & learning system. This system makes use of e-Learning modules, which act as a supplementary tool for the teachers while giving lecture in the classroom. These modules have been developed with the semi-rural background of the polytechnic students in mind. Hence, these modules have been developed in both Hindi & English – thus providing comprehensive understanding for the students.

Hostel

Hostel with a capacity of 280 seats and with all modern facilities has been built on the campus. A common room and a mini gym has also been provided.

Separate NE Boys Hostel

A separate on-campus NE Boys hostel has been created with all amenities and comfort for the students. This ensures that they have a comfortable stay at the college and can concentrate on studies.

Separate Girls Hostel

Keeping in mind the comfort, safety & security of the Girls, a separate NE Girls Hostel has been created on Campus with a dedicated Lady Warden to look after the welfare of the girls. They have been provided with a dedicated recreational play area which includes a private lawn and indoor games such as table tennis, carom, etc.

Separate NE Mess

The NE Mess caters extensively and exclusively to the food and culinary requirements of the students from the NE. A special group of elected students draw up the menu for the Mess. This ensures that hygienic food is provided to the NE Students, which is also as per their taste & requirements.

Jobs and Placements

The institute regularly holds a job and placement fair-entitled "Naukri Utsav", Students from adjacent polytechnics are also invited to the job fair. In 2012, Naukri Utsav had 785 registrations and 214 successful short-listed candidates from 21 participating companies. The Institute regularly places students in adjacent cities and towns. Students have joined many prestigious companies.
